Voice (telephony) services

ETC Activated

ON 15 JANUARY 2022

The eruption of the Hunga-Tonga-Hunga-Ha'apai undersea volcano on 15 January severed the undersea communications cable. As of 22 February, the international section of the cable has been repaired and international communications on Tongatapu restored. Communications with the outer islands are not yet restored. The domestic section of cable linking these islands with Tongatapu will take until late 2022 to repair

ETC funding appeal

Received: US\$250,000 from CERF US\$217,000 from the Government of Japan
